

Matching Gift Program

Did you know that there are local, national and international companies located in Southern California that match dollar-for-dollar what their employees donate to charity? A number of these corporations also provide cash contributions for employees that spend a specific number of hours volunteering at a nonprofit. In addition, companies and corporations also contribute to local communities in a variety of ways such as:

- Direct cash grants/gifts to nonprofits
- Sponsorships of fundraising events
- In kind donations of product/services
- Workplace/employee giving programs
- Loans of employee talent
- Employee volunteer programs
- Partnerships with nonprofits/causes

If you made a donation or are planning a donation to WeROCK all you have to do is ask your Human Resource, Marketing, Public Relations or Community Relations department if your company has a matching gift or volunteer match program. If the answer is YES, then follow these steps:

Submit a donation to WeROCK:

1. Inquire with your Human Resource, Marketing, Public Relations, or Community Relations Department regarding a matching gift verification of your donation or volunteer hour match forms
2. Complete the form (s) provided by your employer and mail to:
Student Runners of Orange County DBA WeROCK
Attn: Kenneth R. Hefner
30 Mulholland Court
Mission Viejo, CA 92692

Once you have completed the above steps, you are done. We'll take care of the rest.

Once we receive your forms, we process and mail them to your employer's benefits department or corporate headquarters. Your employer will mail a matching gift check directly back to us and your pledge will be increased based upon the amount of the matching gift check.

Thank you to all of the companies that offer a matching gift program. These programs are a great way for companies to support WeROCK and for you to double or triple your donation. The following is a list of companies that provide gift matching. If you do not see your company here, please contact us at: werunockids@cox.net
